Microsoft Dynamics™ Mobile Development Tools Training

MOTOROLA

Wirtek well prepared to provide the depth and breadth of training

"Wirtek Mobile Academy's program to enable both Motorola and Microsoft Dynamics™ partners to extend mobility solutions to Microsoft Dynamics™ customers is very important to us. Proper training is a key element for successfully creating and deploying mobility solutions, and Wirtek is well prepared to provide the depth and breadth of training our partners need," says Brian Courtois, Senior Manager, Channel Strategy and Development, Motorola.

Microsoft®

We have the best possible set-up for supporting our partners

"Wirtek Mobile Academy's people are experienced .net developers and Microsoft Certified Trainers. We've had the pleasure of working with some of their employees during the development of the Microsoft Dynamics™ AX Mobile Sales application and Microsoft Dynamics™ Mobile Development Tools where they demonstrated in depth knowledge of mobile and Microsoft's tools and solutions. With their many years of experience from leading companies within the telecommunication industry, I'm confident that Wirtek Mobile Academy is the best training partner for our mobile products," says Bjarne Schøn, Product Unit Manager at Microsoft Dynamics – Mobile Application Group.

Wirtek
Mobile Academy

Wirtek Mobile Academy in Brief

In spring 2007 Wirtek a/s established the Wirtek Mobile Academy. Wirtek, a trusted business partner within the international mobile telecommunication industry, was in 2007 selected by Microsoft Business Solutions to be responsible for the training and support of Microsoft partners and ISVs on a global scale in Microsoft Dynamics™ Mobile Development Tools and Microsoft Dynamics™ AX Mobile Sales.

Wirtek Mobile Academy is the only Microsoft Dynamics™ training center worldwide that offers courses and consultancy within mobile applications and development tools.

Wirtek Mobile Academy is a dynamic, accredited Training Center. Our mission is to deliver highly professional training within mobile technologies towards Microsoft and Motorola Partners. We take pride in our flexibility as we in addition to our scheduled courses offer organized courses on demand at our training center, on-line live courses and even on-site courses worldwide.

All our trainers have their own specialty, in which they are eminent. Most importantly, several of them have gained in-depth knowledge and hands-on experience working on the Microsoft Dynamics™ AX Mobile Sales application and Microsoft Dynamics™ Mobile Development Tools at Microsoft Development Center Copenhagen, the largest development center in Europe.

As a fast growing and enthusiastic Microsoft training center, Wirtek Mobile Academy is committed to keeping our partners up-to-date with both the progress of software development and with your needs as a software developer.

We cannot predict the mobile future, but we can help you develop it

Wirtek Mobile Academy Classes in Copenhagen

The Wirtek Mobile Academy is located north of Copenhagen just 15 minutes drive from the Microsoft Development Centre in Vedbæk. At this beautiful location we offer training in Microsoft Dynamics™ Mobile Development Tools.

Classroom Courses

This brochure covers open training sessions. You will find here for each course a description and dates on which they are scheduled.

Call us or register on-line

You can easily register for one of our open training sessions. Just call us or register on-line at our website www.mobile-academy.com.

On-site courses worldwide

On-site Training Courses

The Wirtek Mobile Academy takes pride in its flexibility: we train you either at our Academy or at a location near you. We offer courses worldwide. It is easy for us to install our mobile pc class (portables and projectors) in a location near you.

The Wirtek Mobile Academy schedule training courses worldwide. Please see the Wirtek Mobile Academy Course Calendar for dates, locations and addresses.

On-line Live Courses

Wirtek Mobile Academy offers Live Courses making us able to provide all our customers with optimal training conditions. Attending Wirtek Mobile Academy Live Courses provides you with a unique possibility to interact with top professional trainers ensuring that no matter where in the world you are based, you are up-to-date with the latest technologies and trends within mobile software development without geographical limits.

It is often found that after attending a course participants feel that they would have liked to know more about certain areas. Live Courses ensure that those areas are covered professionally and quickly without you leaving your desk again and losing valuable time.

Top 5 benefits why you should attend Live Courses

1. Reduce costs

When conducting Wirtek Mobile Academy courses our follow up online Live Courses is your guarantee of return on your investment compared to costs of conducting an on-site instructor-led course.

You have a great opportunity of providing more of your employees with optimal and updated knowledge without loosing time and productivity when using Wirtek Mobile Academy Live Courses - no matter where in the world they are.

2. Real-time ensures efficiency

With Live Courses we guarantee you the same effect and efficiency as being trained in person. And you can share, collaborate, and discuss during a Live Course in real-time immediately receiving feedback and replies from the trainer.

3. Stay productive

You don't need to leave your desk to attend a training course. You will be able to gain what you felt that you missed during an on-site training session and at the same time you avoid all the hassles of travel.

This ensures that you spend your time wisely and avoid downtime associated with the lack of knowledge. You can attend courses more frequently and thereby increase your business productivity at the same time.

4. Flexible course environment

With a flexible course environment that supports all types of courses from small collaborative team courses to huge training events. Live Courses is the perfect solution for conducting effective training when one or more of your employees need remote training.

5. Stay up-to-date with the latest technologies

Windows of opportunity are short, and you cannot afford to wait for everyone to be in the same place, at the same time attending a course. Quickly and effectively update your employees with the latest technologies whenever they are released, regardless of geography.

Wirtek Mobile Academy Courses Description

Microsoft Dynamics™ Mobile Development Tools – Installation and Solution Development Training

The Microsoft Dynamics™ Mobile Development Tools enable Microsoft and Motorola partners to develop and customize mobile applications for Microsoft Dynamics™ AX solutions. The Mobile Development Tools make it easy to integrate with Microsoft Dynamics™ AX and extend the existing functionality to benefit users with a need to work in mobile environments.

The Mobile Development Tools consist of the following components
- Mobile Framework: for easy mobile application development and customization
- Mobile Server: for easy mobile application integration

Mobile Framework

The Mobile Framework enables you to build modularized mobile business applications tailored to specific roles in your company. Using the Mobile Framework (an extension of Visual Studio 2005) developers can quickly create mobile applications from reusable components called tasklets. Tasklets can be combined in different ways to cater to the needs of individuals. This RoleTailored architecture leverages the power of Windows Mobile devices and helps mobile users become more effective and efficient in their daily tasks.

The architecture of the Mobile Framework makes it easy to reuse, deploy, and combine individual tasklets with customer-specific processes or work flows. Mobile applications created with the Mobile Framework operate on any device that runs on Windows Mobile 5.0/6.0. Communication with the back end server is done through XML Web services handled by the Mobile Server.

Mobile Server

The Mobile Server provides the technology infrastructure to connect your mobile business applications with Microsoft Dynamics supporting different networks such as Wi-Fi and GPRS.

The Mobile Server enables applications to work offline as well as on-line and takes advantage of a local database to enable offline operation during periods of no network connectivity or intermittent network connectivity. A management console snap-in, Deployment, manages the deployment of mobile applications to mobile devices. Document service ensures the communication between the mobile devices and the Microsoft Dynamics AX.

Course Objectives
After completing this course the student should be able to:
• Demonstrate knowledge of Microsoft Dynamics™ Mobile Framework
• Develop mobile applications for Microsoft Dynamics™ AX

Who Should Attend
• Microsoft Partners wishing to gain insight into Microsoft Dynamics™ Mobile Framework
• Microsoft Partners wishing to develop applications for Microsoft Dynamics™ solutions
• Microsoft Partners wishing to develop/configure mobile Microsoft Dynamics™ AX Mobile Sales applications

Microsoft Dynamics™ AX Mobile Sales Training

Microsoft Dynamics™ AX Mobile Sales is the first mobile application from Microsoft Dynamics™ AX. Mobile Sales is RoleTailored and task-oriented and an ideal solution for field sales representatives and other mobile employees who need to work in remote locations. The field sales representatives can plan visits, review relevant sales information, and create orders. Mobile employees can use the calendar and task functionality of Microsoft Pocket Outlook® directly from the application to get a full view of their daily activities.

The field sales representatives can plan visits, review relevant sales information, and create orders. Mobile employees can use the calendar and task functionality of Microsoft Pocket Outlook® directly from the application to get a full view of their daily activities.

Course Objectives
• After completing this course the student should:
• Have basic knowledge of Microsoft Dynamics™ AX Mobile Sales
• Be able to create orders and simple order wizards
• Be able to work with orchestration and document handler
• Be able to configure assortment tasklets
• Be ready to work on projects

Who Should Attend
• Partners wishing to gain insight into Microsoft Dynamics™ AX Mobile Sales
• Partners wishing to develop applications in Microsoft Dynamics™ AX Mobile Sales
• Channel partners, customers, associates

SYSTEMUDVIKLING A/S

Competent instructors with great insight

"The course has made me very familiar with Microsoft Dynamics™ Mobile Sales and the development tools needed to develop the mobile solutions that our customers need. The instructors are very competent and provide a great insight into the entire development tool for mobile solutions," says Jesper Hviid, systems developer at Bredana Systemudvikling A/S

Test and certification

All courses are ended with a test, and upon satisfactory completion the student receives a Wirtek Mobile Academy certification.

Course evaluation

After attending a Wirtek Mobile Academy course we urge you to fill out an evaluation form that will be handed out at the end of a course.

One of Wirtek Mobile Academy's top priorities is continuously to exceed ourselves in providing you with the best possible training and consultancy conditions. Your evaluation is thus most important for us.

We take pride in making your participation at our courses worth your money and time. Most important we want you to have the feeling of being updated and inspired to take on new challenges when you return to your daily work.

Prices and conditions for the Wirtek Mobile Academy courses

Find prices and condition on our website www.mobile-academy.com. Make sure to register in good time, as we book the courses on a first come, first served basis.
